LUBRICATING OIL

FL FUMICLEAN H 60

HYDROCARBON TYPE CLEANER

FL FUMICLEAN H 60 highly refined, extremely low viscosity, and high purity paraffin oil. Compared with kerosene that has an equivalent viscosity, this has lower odor, higher flash point, and fewer irritants, and brings out its good ability to clean up oil spots after metalworking or heat-treating.

FL FUMICLEAN H 60 doesn't correspond to Ordinance on the Prevention of Organic Solvent Poisoning and isn't defined as hazardous material under Industrial Safety and Health Law, so this cleaner is tender to workers and environments.
