

NTG – 2002

NTG – 2000 SERIES are greases for high – temperature, lubrication, consisting of high quality mineral oil, inorganic thickener, and select additive agents. There are NTG – 2001, NTG – 2002, and NTG – 2003 in this series.

◇ **SPECIAL FEATURES**

Exerts an excellent lubricity especially in the machine operations under high – temperature.

◇ **APPLICATION**

Conveyors, shutting doors of heating furnaces, Sintering plants of steel mills and kilns of cement plants, etc.

◇ **TYPICAL PROPERTIES**

TEST ITEMS		NTG - 2002
Penetration	(25°C)	277
Dropping Point	°C	Min. 250
Evaporation Loss	mass%	0.23
Oil Separation	mass%	0.7
Oxidation Stability	MPa	0.025
Viscosity (Base Oil 100 °C)	mm ² /s	32.28
