CARTRIDGE LITHIUM EP- 1

CARTRIDGE LITHIUM EP- 1 is non-lead EP lithium grease, consisting of highly refined base oil as base stock, thickened with lithium soap and effectively formulated of oxidation inhibitor, non-lead extreme pressure additive, rust preventive.

CARTRIDGE LITHIUM EP- 1 is suitable for lubrications of chassis of various automobiles from mini-size cars to extra large trucks, various construction machines, bearings, gears and pins, bearings for rolling stocks, and rolling/sliding bearings of various industrial machineries.

◇ **SPECIAL FEATURES**

1. Has good mechanical stability and heat resistance.
2. Has strong water resistance.
3. Has good extreme pressure resistance.

◇ **APPLICATIONS** : Lubrication for ;

1. Chassis of automobiles.
2. Bearings, gears, and pins of construction machineries.
3. Rolling or sliding bearings of general industrial machineries.

◇ **TYPICAL PROPERTIES**

TEST ITEMS		TEST METHOD
Appearance	Claybank-Butyroid	Visual
Penetration, Worked 25 °C	365	JIS K2220 5.3
Dropping Point	185	JIS K2220 5.4
Copper Corrosion B method 100°C 24 h	Pass	JIS K2220 5.5
Evaporation 99 °C 22h mass %	0.6	JIS K2220 5.6
Oil Separation 100°C 24h mass %	-	JIS K2220 5.7
Oxidant Stability 99 °C 100h MPa	0.029	JIS K2220 5.8
Worked Stability (10 ⁵)	410	JIS K2220 5.11
Water Washout Test 38°C 1 h mass %	-	JIS K2220 5.12
Timken OK Load kg		JIS K2220 5.16
