# **SUNTAP ST**

**CHLORINE - FREE CUTTING PASTE for TAPPING WORKS**

## **PRODUCT DESCRIPTION**

SUNTAP ST is chlorine-free cutting paste for tapping works. SUNTAP ST exhibits superb cutting efficiency just by giving a few coating of it on a tip of tool

## **SPECIAL FEATURES**

### **1. Easy To Handle**

As being paste type, it is easy to use SUNTAP ST and consumption rate can be held minimum and it does not spoil working environment.

### **2. Excellent Cutting Performance**

SUNTAP ST is paste form at room temperature, but it gets into fluid by heat emitted through metalworking, and becomes easier to permeate into the point of metalworking quickly. Thereby remarkably reducing wear and breakage of taps, enabling output of fine screws without pickups.

### **3. Wide Application Range**

SUNTAP ST is usable not only for tapping works but also for low speed precision works such as drilling, reaming, and threading.

### **4. Workable On Various Metals**

SUNTAP ST provides high efficiency of cutting works not only on carbon steel, alloy steel, and aluminum alloy, but also on stainless steel and heat resistive steel.(Do not use on copper and copper alloy to avoid discoloration.)

### **5. Chlorine-Free**

## **HOW TO USE**

Apply SUNTAP ST on the point of tapping using brush, etc.

## **Under the JAPANESE FIRE DEFENCE LAW**

SUNTAP ST is designated as a flammable material.

## **PACKAGES**

18 kg pail

2.5 kg can (6 cans/1 cases)

1 kg cans (12 cans/1 cases)
